

# Timetable enquiry in the SBB-app and timetable

## Road and Para-cycling Road World Championships

The SBB app cannot display alternative stops in the vicinity when searching for a timetable. In concrete terms, this means that no connections are displayed at stops without a timetabled service due to road closures, even though there is a service within walking distance.

The SBB online timetable at [www.sbb.ch/fahrplan](http://www.sbb.ch/fahrplan) can display connections from alternative stops in the vicinity. These settings must be activated: Step-by-step instructions for the SBB online timetable:

Enter the desired connection and click on "Settings".

From  
Zürich, Zentrum Witikon

To  
Zürich, Meierhofplatz

< We, 25.09.2024 > | 13:00 Dep Arr

Settings

Earlier connections

B 704 Direction Zürich, Klusplatz from CHF 3.20

18:36 ————— 19:23

1. 2. 47 min

Select "Alternative connections"

Settings

Bicycle transport. Only show bike-friendly connections (Switzerland).

Longer interchange time. Set the interchange time to suit your needs.

Accessible connection. Show connections for accessible travel.

Occupancy. Only show connections without 'Very high occupancy'.

Travel comfort. Filter for connections with more comfort

Alternative connections. Also show connections via other routes with a longer duration.

Reset Apply

For alternative connections, select "Also include other nearby departure and arrival points" and click on "Apply".

**Alternative connections.** 

Also show connections via other routes with a longer duration.

Show alternative connections

Also include other origin and destination points in the vicinity.

We recommend using the ZVV app and the ZVV timetable at [www.zvv.ch/fahrplan](http://www.zvv.ch/fahrplan).

The ZVV app and ZVV online timetable automatically search for alternative stops in the vicinity.
